Workshop Request Form

Thank you for your interest in presenting a workshop/class at Opal Moon Wellness Center. Opal Moon is a center for holistic wellness, support and healing in Croton-on-Hudson, NY - about 40 miles north of Manhattan. The facility is a 1920's Tudor-style stucco house located off a main road on a peaceful acre of wooded property. We have one workshop space with fireplace that opens out onto a patio & outdoor meditation circle with firepit, as well as three other treatment rooms available for private healing sessions.

Opal Moon Wellness Center Workshop Facility Specifics and Policies

The fee split for workshops is 60/40 (60% to provider, 40% to center). We handle all of the administration (participant registration, collecting fees, etc) connected with your workshop.

Marketing services include email blasts to our 2200 member customer list, a calendar listing with your bio and workshop description on our website (<http://opalmoon.net>) and Facebook Page (<http://www.facebook.com/opalmoonwellnesscenter>), advertising in Natural Awakenings Magazine, and flyers posted in our lobby. We also ask each workshop provider to do their own marketing of the event in addition to what we provide.

The workshop space can accommodate a maximum of 16 persons in a circle format and up to 20 persons in an audience format. We may also accommodate small movement classes of no more than 8 people. We have chairs, two 8' folding tables, a flip chart with markers, projector and a CD player available in the room. We also have backjacks for 12-15 people as well as a massage/reiki table.

Our classes and workshops vary widely in content, and we are always happy to hear about new possibilities. If you think our venue would suit your needs, please fill out the form below and e-mail it to our program manager at programs@opalmoon.net.

Note: This form must be filled out and submitted before a meeting or discussion can be scheduled. If you are interested in just **renting** the workshop space, please send an email to programs@opalmoon.net and request current rental rates.
